

Meal Delivery Website

Introduction

A website built to gain experience in building Dynamic websites and Server-Side Web applications using Node.js and Express.

Inspired by the [Live Fit Food website](#).

Development

- All back-end functionality built with NodeJS and Express.
- All views created with Express-Handlebars.
- No Front-End CSS or JavaScript Frameworks used.

How to run

Write the following commands in your shell while in the project's directory.

```
npm i  
npm start
```

Then visit `localhost:3000`
